

MONDAY 4 DECEMBER

LOCATION: B6 75
STATE OF GREEN PAVILION

FINANCING THE GREEN TRANSITION

Join us for a day to discuss how we can finance the global green transition in a just manner respects people and the planet and remains profitable. The green transition will require large investments in infrastructure to transform energy systems and ensure resiliency for a future of extremes, mobilisation of capital for nature and biodiversity conservation, and to ensure an enabling regulatory environment that warrants green investments for a more sustainable and just future for all.
