

WEDNESDAY 6 DECEMBER

LOCATION: B6 75
STATE OF GREEN PAVILION

SHIPPING

State of Green will bring together industry leaders, policymakers and investors to discuss pathways and collaborative efforts to move the needle on green shipping.

Events throughout the day will delve into needed market drivers and opportunities associated with the development of infrastructure for green fuels, the regulatory landscape, and the potential for public-private partnerships between global energy leaders, shipowners, decision-makers and governments.

During the opening session, you will hear from:

- Lars Aagaard, Minister for Climate, Energy and Utilities, Denmark
- Reece Whitby, Western Australian Minister for Environment and Climate Action
