MONDAY 4 DECEMBER

LOCATION: B6 75
STATE OF GREEN PAVILION

FINANCING THE GREEN TRANSITION

Join us for a day to discuss how we can finance the global green transition in a just manner respects people and the planet and remains profitable. The green transition will require large investments in infrastructure to transform energy systems and ensure resiliency for a future of extremes, mobilisation of capital for nature and biodiversity conservation, and to ensure an enabling regulatory environment that warrants green investments for a more sustainable and just future for all.

Programme

10:30 - 11:30

Financing for a Global Green Transition

By Solutions for Our Climate, State of Green

11:45 - 12:45

E3F Export Credits – Scale up to phase out

By Danish chairmanship of the Export Finance for Future coalition (E3F)

13:00 - 14:00

Accelerate to net-zero - Why we need cross-industry collaborations to solve industry-wide challenges

By Accenture, Amazon Web Services (AWS)

14:15 - 15:15

Tripling up Renewables by 2030 and critical minerals requirements

By FLSmidth

15:30 - 16:30

Navigating Green Horizons: The Evolving Political Economy of Trade Routes

By ORF

16:45 - 17:45

Unleashing innovative CleanTech to achieve net-zero amid intermittent energy frontiers

By TOPSOE, Alfa Laval, Siemens

TUESDAY 5 DECEMBER

LOCATION: B6 75
STATE OF GREEN PAVILION

GREEN ENERGY TRANSITION

The focus will be on actionable outcomes. We will discuss tangible steps for the global scaling up of hydrogen production, laying down a roadmap for increased adoption of non-fossil fuels across the energy and industrial sectors. Importantly, our objective is to ensure an inclusive and environmentally sustainable transition that considers the diverse needs and challenges of different regions and industries.

Programme

10:30 - 11:15

Launch of the IEA Energy Policy Review of Denmark 2023

- IEA Executive Director Dr. Fatih Birol
- Minister of Climate, Energy and Utilities Lars Aagaard.

Organised by Ministry of Climate, Energy and Utilities

11:25 - 12:15

Clearing the last mile: opportunities for supplying zero-emission fuels at ports

By Global Maritime Forum, Rocky Mountain Institute on behalf of Zero Emission Shipping Mission

12:30 - 13:30

Fueling the Green Transition - How to radically increase the world's production of zero-emission fuels

By MAN Energy, DP World, TOPSOE, MMMCZCS, CIP

13:45 - 14:45

Re-starting the confidence cycle for renewable energy investments

By Ørsted

15:00 - 16:00

We need rules and tools - How can digital technology help streamlining RES permitting process

By WindEurope, AWS, Accenture

16:30 - 17:30

CCS - Enabling and Scaling Up CCS-projects

By Danish Industry, BDI - Bundersverband der Deutschen Industrie e.V

WEDNESDAY 6 DECEMBER

LOCATION: B6 75
STATE OF GREEN PAVILION

SHIPPING

State of Green will bring together industry leaders, policymakers and investors to discuss pathways and collaborative efforts to move the needle on green shipping.

Events throughout the day will delve into needed market drivers and opportunities associated with the development of infrastructure for green fuels, the regulatory landscape, and the potential for public-private partnerships between global energy leaders, shipowners, decision-makers and governments.

During the opening session, you will hear from:

- Lars Aagaard, Minister for Climate, Energy and Utilities, Denmark
- Reece Whitby, Western Australian Minister for Environment and Climate Action

Programme

10:30 - 11:25

High-level opening session - Next Generation Global Shipping

By State of Green & ORF

11:40 - 12:45

Green Shipping Corridors

By Mærsk Mc-Kinney Møller Center for Zero Carbon Shipping

13:00 - 14:00

Cutting Edge Fuels for Heavy Industry, Aviation, and Shipping

By Clean Energy Ministerial Biofuture Campaign, Methanol Institute, RNG

14:00 - 14:10

Legislating international transport - IMO targets can be implemented in national climate legislation

By Danish Climate Council

15:30 - 17:00

Collective Financing in the Fashion Industry

By CIP, Global Fashion Agenda
